

THE ULTIMATE PERFORMANCE PACK PERFORM. RECOVER. GROW.*

Why add nutritional supplementation to a healthy diet already supported by sports nutrition? Excessive physiological demands from intense training and strict dieting could create nutritional deficiencies which adversely impact overall athletic performance. Knowledgeable, hard-working athletes understand that with a solid nutritional foundation, sports nutrition can be better maximized, resulting in a higher level of performance on a more consistent basis.*

Why use ALLMAX VITASTACK? All athletes, professional or amateur, require more sustenance than what traditional multi-vitamins can provide. Each VITASTACK sachet contains a specially formulated, powerfully potent blend of over 70 highly active and ultra-absorbable nutrients: vitamins, minerals, BCAAs, phytonutrients, omega-3 essential fatty acids, enzymes & antioxidants. Backed by clinical and sports research, every nutrient is optimally dosed to deliver on the physiological demands associated with muscle growth and performance in high-intensity athletic training.*
